IMPORTANT INFORMATION

PVC joints cannot be considered a total barrier against water damage and flooding. It is recommended to frequently inspect the product and pay particular attention to its use. It is recommended to replace the seals on a yearly basis.

DISCLAIMER

Note: This illustration is provided for visual reference only. Actual product may differ from the illustration. Order hardware before starting the job. The manufacturer reserves the right to change product and information without notice. Always use the instructions inside the package. Drawings and technical documents contain examples of hardware from different manufacturers. The customer may in no case make a claim following the use of these documents. The Company disclaims any responsibility for the structural details related to a construction or project. Installation must be done by qualified personnel. Always make sure that the product is properly set to the support material using suitable fixings. Maintenance: clean with a soft cloth and non-abrasive soap or ammonia. The use of harmful products can cause a premature degradation and cause breakage of the seal. Disclaimer: The preceding information as well as any technical recommendation given in writing, verbally or based on tests is provided to the best of our knowledge. However, recommendations are non-binding and do not diminish your responsibility for determining the correctness of these recommendations and the suitability of the product for your particular purpose. The application, use or processing of our products as well as the production of products based on our technical recommendations are beyond our control and therefore exclusively your responsibility. Sales of our products are subject to our most recent General Sales and Delivery Conditions. Please note that Richelieu will not accept any returns or claims for unpackaged products.
