## APPLICATION

Ideal for designing railings and glass balustrades with handrails.

## INCLUDED PRODUCT(S)

Set of four round clamps. Stainless steel safety lock pin covered in rubber. Rubber gaskets for 6 mm and 10 mm glass Screw cap.

## IMPORTANT INFORMATION

Glass drilling is required when using the safety lock pin. Not using the safety lock pin during installation may result in the glass sliding. Make sure to use proper joints according to the glass thickness. For safety purposes, use tempered glass. This illustration is provided for visual reference only. Actual product may vary. Order hardware before starting the job. The manufacturer reserves the right to change product and information without notice. Always follow the instructions inside the package. Drawings and technical documents contain examples of hardware from different manufacturers. The customer may not in any case make a claim following the use of these documents. The Company disclaims any responsibility for the structural details related to a construction or project. Installation must always be done by qualified personnel. Make sure that the product is properly installed using suitable fixtures on the support material.
