GLAZING SUPPLIES

Large Square Glass Clamp for Flat Surface Mounting, with Bottom Plate

Product # SSGC411XXZMB

Recommended Location Usage Interior

Finish Matte Black

Material Zamak

DESCRIPTION

55 mm high with security plate

This clamp is designed for mounting a glass panel onto a flat surface. A safety plate must always be used to prevent glass from slipping.

No need to drill through the glass. A protective gasket kit (sold separately) is required for installation.

ADVANTAGES AND BENEFITS

Stability and safety of the glass when the clamp is used with the safety plate. No glass drilling is required when using the security plate.

REQUIRED PRODUCTS ⚠️

Requires ONE of the following products

Sales unit

Gaskets for Large Square Glass Clamps
Product # SSGR41001RBN

Safety Glass Thickness: 1/4
in*
