

Large Square Glass Clamp for Flat Surface Mounting, with Bottom Plate

Recommended Location Usage

Interior

Interior /
Exterior

Finish

Material

Stainless
Steel 316

Zamak

DESCRIPTION

55 mm high with security plate

This clamp is designed for mounting a glass panel onto a flat surface. A safety plate must always be used to prevent glass from slipping.

No need to drill through the glass. A protective gasket kit (sold separately) is required for installation.

ADVANTAGES AND BENEFITS

Stability and safety of the glass when the clamp is used with the safety plate. No glass drilling is required when using the security plate.
